

## Miraculous Skin Tonic

Ref.	4101
Description	Skin Tonic with Glow & Anti Ageing Effect
Retail size	150ml clear plastic bottle with fliptop cap
Cabin size	250ml white botte with pump + cap
Product galenics	Clear odourless liquid

### DESCRIPTION

Peeling Tonic with 2% BHA for wonderfully smooth and even skin. As if by magic, the complexion appears clear, rosy-fresh and smooth. Miraculous Skin Tonic removes dead skin cells, even from the pores. BHA (salicylic acid) has anti-inflammatory properties and reduces impurities and skin redness. The anti-aging active ingredient from the resurrection plant *Myrothamnus flabellifolia* protects against stress and increases skin moisture by almost 25% and improves skin elasticity by almost 94% (after 28 days of daily use). Guarana stimulates microcirculation and gives a fresh appearance.

### Purpose and function:

- Gently removes dead skin cells
- Actively fights inflammation, impurities and enlarged pores
- Gives more glow to the complexion
- Increases moisture content by almost 25%\* when used regularly
- Improves skin's elasticity dramatically by almost 94%\* when used regularly

### Main active ingredients:

**Salicylic Acid (BHA) 2%** is a Beta-Hydroxy Acid, a highly effective superficial peeling agent and pore cleanser. Salicylic Acid loosens and removes aging cells, oil and debris attached to the skin surface, stimulates new skin cell production and collagen formation, is oil-soluble and lipophilic, thus it is able to penetrate sebum filled follicles and clean out clogged pores, resulting in remarkable improvement of acne prone skin.

Extract from **Resurrection Plant (*Myrothamnus flabellifolia*)** most plants die if they lose 20% to 30% of their water content but *Myrothamnus* is able to completely air dry yet remain alive. It remains in this state until water is available and then, within a matter of hours, it springs to life. In studies an extract from it showed remarkable skin rejuvenation features. It is rich in Glyceryl Glucoside which is the stress protection and reactivation substance in the Resurrection Plant and enables the plant to survive extreme dryness and extreme high UV radiation.

**Phytozell Guarana** has a high content of caffeine and stimulates microcirculation giving a relaxed and fresh complexion. Signs of fatigue are reduced. A wake-up call in the morning and a freshness kick in the evening.

**APPLICATION:**

Use Miraculous Skin Tonic in the morning and/or evening after cleansing your face. Do not wash it off. Then apply your usual care (during the day with SPF 30). For external use only. Avoid eye contact. If contact with eyes occurs, rinse eyes thoroughly with water. If skin irritation occurs, wash skin thoroughly with water and discontinue further use. If swallowed, consult a doctor. Do not use for children under 3 years of age. Not for use in applications where inhalation may lead to exposure of end users' lungs.
