

## Face Sculpture Cream

Ref. 4127/4127P

Description	Rich lifting cream for firmer facial contours and a youthful complexion
Retail size	50 ml dispenser
Professional size	150 ml dispenser
Skin type	All skin types
Product galenics	Cream

### Description

The latest studies using computer simulation have revealed that the contour of the face plays a crucial role in estimating a woman's age.

Sagging cheek areas cause us to appear older, even if the skin is otherwise smooth, rosy and flawless.

**Face Sculpture Cream** is the answer to this problem. This reconstructing cream "pads out" skin in need of regeneration from its depths and therefore remodels the facial contours so that the customer feels good in her skin again.

The cream is used wherever skin aging is taking place. The new and innovative contents based on elastin-stimulating peptides with scientifically proven effect lift and firm the facial contours and lend the skin a youthful radiance.

However, Face Sculpture Cream can do more than this! Thanks to a highly-active plant extract consisting of *Rabdosia Rubescens* and *Sigesbeckia Orientalis*, it specifically combats pigmentation disorders and age spots caused by melanin accumulations. It also reduces unattractive skin redness which can form as we age.

Face Sculpture Cream lends the skin a visibly more even and radiant complexion.

Face Sculpture Cream contains 27% of lipids. The emollient cream to restructure the skin contours is perfectly suited for women who prefer a rich facial care.

### Purpose and function

- Firmer and more lifted facial contours
- Flawless and fresh complexion
- Rich but pleasantly light texture
- Mattifying effect
- Ideal foundation for make-up

**inspira:cosmetics**

## Main active substances

**3D Lifting Peptides:** Elastin-stimulating peptides to stimulate elastin synthesis in the fibroblasts, firm the connective tissue structure and lift the facial contours

Scientific studies on the effect of the elastin-stimulating peptides

- Increase in elastin synthesis: + 15% (in vitro study)
- Promotion of elastic fiber anchoring: + 94% (in vitro study)
- Increase in skin elasticity after 2 months: + 14% (clinical study)
- Lifting of the facial contours after 2 months: + 11,3% (clinical study)

Self-assessment: 26 female volunteers with visibly sagging skin tested a cream containing 4% elastin-stimulating peptides for 2 months in the morning and evening.

- Remodeled face: 80%
- Less slack tissue: 64%
- Lifted facial contours: 62%

**Radiant Skin Complex:** Highly-active plant extract of Siegesbeckia Orientalis and Radosia Rubescens; has an anti-inflammatory and antioxidant effect, leads to a more even and radiant complexion

### Effectiveness study with the Radiant Skin Complex:

- Effect on browns spots (melanin)  
45% lower melanin content  
34% lower uptake of melanosomes in the keratinocytes
- Effect on red spots (hemoglobin)  
44% Decrease in vascular endothelial growth factor (VEGF) – in vitro study  
60% reduction in vascular sensitivity (in vitro study)

**Long- and short-chain hyaluronic acid:** Produced using biotechnology, it possesses a fill-in effect which "pads out" the skin from the inside out. The skin is lifted extensively.

**Genuine Japanese Silk:** Possesses a structure similar to the skin; is rapidly absorbed, protects against dehydration, leaves the skin supple and soft

**Macadamia Nut Oil:** Softening and skin-smoothing, rich in palmitoleic acid; palmitoleic acid enhances the oil's ability to penetrate into the skin

**Isostearyl-Isostearate:** emollient based on sustainable raw plant materials; improves the cohesion of the lipids in the horny layer (Stratum Corneum) and reduces the skin's trans-epidermal water loss

**Vitamin A palmitate:** Speeds up natural skin renewal

**Vitamin E acetate:** Radical scavenger; offers preventative cell protection; combats premature skin aging

### Home care application

In the morning: Face Sculpture Serum and then Premium Age Protector SPF 30 or Face Sculpture Cream.

In the evening: Face Sculpture Serum and then Face Sculpture Cream.

If the skin is not sensitive to UV-radiation any more Face Sculpture Cream can be used as a day and night cream.

### Professional application

For a massage: distribute Face Sculpture Cream onto the face, neck and neckline. To improve its sliding properties, pour on a few drops of Massage Serum and massage as usual.

Depending on the time of year and the time of day, use Premium Age Protector SPF 30 (if the skin could still be exposed to UV rays) or Face Sculpture Cream as a finishing product.

### Incis

aqua [water], butylene glycol, C 12-15 alkyl benzoate, isostearyl isostearate, cetearyl alcohol, hydrogenated coco-glycerides, methyl glucose sesquistearate, glycerine, glyceryl stearate, squalane, butyrospermum parkii butter [butyrospermum parkii (shea) butter], octyldodecanol, macadamia ternifolia seed oil, cocos nucifera oil [cocos nucifera (coconut) oil], saccharide isomerate, tocopheryl acetate, steareth-21, sigesbeckia orientalis extract, rhabdosia rubescens extract, sodium hyaluronate, allantoin, retinyl palmitate, helianthus annuus [sunflower] seed oil, glyceryl caprylate, cyclopentasiloxane, dimethicone, cyclohexasiloxane, acetyl dipeptide-1 cetyl ester, serica powder [silk powder], sorbitan laurate, lecithin, sodium levulinate, levulinic acid, ascorbyl palmitate, tocopherol, disodium EDTA, citric acid, sodium citrate, parfum [fragrance], hydroxyethylcellulose, phenoxyethanol, methylparaben, sodium benzoate, CI 15 985 [yellow 6]
