

## Face Sculpture Serum

Ref. 4130/4130P

Description	Lifting serum for firmed facial contours and a youthful appearance
Retail size	30 ml dropper
Professional size	50 ml dispenser
Skin type	For skin regeneration
Product galenics	Golden-coloured emulsion

### Description

**Face Sculpture Serum** is a highly-concentrated and thus ultra-active elixir for refining the skin structure and lifting the facial contours. It remodels skin in need of regeneration and firms it from its depths. The product acts where the aging process starts.

### Purpose and function

- Refines the skin appearance
- Lifts the facial contours
- Smooths lines and wrinkles
- Leaves the skin looking younger

### Main active substances

**Saccharide Isomerate:** Sustainably improves the skin's moisture retention capacity, as this combination of various sugar compounds binds firmly to the surface of the skin and is not rinsed off during washing. Saccharide Isomerate prevents moisture loss – even under dry environmental conditions

**3D Lifting Complex:** Elastin-stimulating peptides for stimulating elastin synthesis in the fibroblasts; firm the connective tissue structure and lift the facial contours

**Long- and short-chain hyaluronic acid:** Produced using biotechnology, it possesses a fill-in effect which "pads out" the skin from the inside out. The skin is lifted extensively.

### Home care application

Apply 1-2 drops onto the cleansed skin of the face and neck in the morning and evening and allow to work in briefly. Then apply Premium Age Protector SPF 30 in the morning and Face Sculpture Cream in the evening.

### Professional application

Apply 2-4 drops onto the face, neck and neckline and press gently into the skin. Then apply one of the following masks: Biocellulose Mask Age Defying, Calming Gel Mask or Peel Off Filmalgine® Ultra Comfort Mask.

### Incis

aqua [water], butylene glycol, propylene glycol, glycerine, pentylene glycol, saccharide isomerate, carbomer, hydroxyethylcellulose, sodium hyaluronate, glyceryl caprate, acetyl dipeptide-1 cetyl ester, PEG-40 hydrogenated castor oil, sorbitan laurate, polyglyceryl-2 laurate, polyglyceryl-10 laurate, disodium EDTA, sodium hydroxide, sodium citrate, citric acid, parfum [fragrance], phenoxyethanol, methyl benzoate, CI 15 985 [yellow 6]
