

Eye Care Cream

Ref. 4160/4160P

Description	Tightening eye care cream
Retail size	15 ml dispenser
Professional size	30 ml dispenser
Skin type	All skin types
Product galenics	Cream

Description

Skin regeneration in the eye area demands "intelligent" care. Only in this way the eye contour tissue is lifted, strengthened and simultaneously soothed and relieved.

Eye Care Cream fulfils all these requirements. As a long-term effect Eye Care Cream stabilizes the vessel walls. They are strengthened thanks to an improved collagen framework, resulting in an improved supply of oxygen to the connective tissue. Dark circles around the eyes and puffiness are reduced whilst the hyaluronic acid's high moisture binding capacity demonstrates its lifting effect even in the short term.

Purpose and function

- Smooths lines and creases
- Reduces rings around the eyes and puffiness
- Increases the resilience and elasticity of the eye area
- Stimulates the skin's own regeneration process
- Rich, but nevertheless easy to distribute
- Ideally suited for long-lasting eye make-up

Main active substances

Peptide complex: Complex consisting of soya, yeast and rice peptides, reduces dark circles around the eyes and puffiness by improving the skin's microcirculation, keeps the collagen and elastin framework intact

Calming Complex: Extract of yeast cells, butcher's broom; calendula, horse chestnut, liquorice and marsh pennywort; calming, anti-inflammatory, anti-itching, anti-edematous, skin-fortifying effect

Long- and short-chain Hyaluronic acid: Produced using biotechnology, it possesses a fill-in effect which "pads out" the skin from the inside out. The skin is lifted extensively.

Shea butter: High-quality natural raw material from the nuts of the shea butter tree (*Butyrospermum parkii*), protects the skin against drying out; lipid-replenishing, smoothing, improving the skin suppleness

Vitamin A palmitate: Stimulates the skin's natural regeneration and improves the structure of the epidermis

Vitamin E acetate: Radical scavenger, preventive cell protection, combats premature skin aging

Home care application

Gently pat Eye Care Cream in on cleansed skin around the eye area in the morning and/or evening. Perfectly suitable as a foundation for eye make-up.

Professional application

Gently pat Eye Care Cream in on the skin around the eye area at the end of the treatment and massage in gently. Then apply a suitable day care cream depending on the skin type.

Incis

aqua [water], butylene glycol, macadamia ternifolia seed oil, persea gratissima oil [persea gratissima (avocado) oil], squalane, decyl oleate, octyldodecanol, cetearyl alcohol, butyrospermum parkii butter [butyrospermum parkii (shea) butter], steareth-21, pentylene glycol, hydrogenated coco-glycerides, steareth-2, tocopheryl acetate, calendula officinalis extract [calendula officinalis flower extract], centella asiatica leaf extract, magnesium aluminum silicate, hydrolyzed yeast protein, glyceryl stearate, retinyl palmitate, helianthus annuus seed oil [helianthus annuus (sunflower) seed oil], glycine soja protein [glycine soja (soybean) protein], glycerin, sodium hyaluronate, panthenol, hydrolyzed rice protein, ammonium glycyrrhizate, ruscus aculeatus extract, [ruscus aculeatus root extract], escin, xanthan gum, lecithin, sodium dextran sulfate, superoxide dismutase, ascorbyl palmitate, tocopherol, disodium EDTA, sodium hydroxide, sodium citrate, parfum [fragrance], phenoxyethanol, methylparaben, sodium benzoate, potassium sorbate
